THE COVID FINE PRINT:

Under Level 2, Public and private venues or workplaces are considered 'controlled' environments. This includes our conference facilities.

These are the Ministry of Health Requirements we are working with:

Physical distancing of 1-metre for everyone on the premises (who are not close friends or whānau). This includes staff.

There is a limit of 100 people attending an event facility at one time.

Event facilities include conference venues. This limit excludes workers.

Keep contact tracing records for everyone (even if everyone at the event knows each other). Business and services events in venues must comply with business and service rules (eg, conferences).
